

Welcome to the Roger Allison Memorial Garden

Sponsored by Nelson Neighborhood Improvement Association

Gardening is a wonderful thing to do for yourself, your family and is a great way to meet your neighbors. These garden plots are for the benefit of NNIA members free so they can grow wholesome foods for their families.

Please respect them and their labor

Do Not Pick Their Food!

If you would like to garden with us please contact:

Our Guidelines and Rules

I will respect others' space and the purpose of the Garden

I understand that the Nelson Neighborhood Improvement Association sponsor this garden and require all gardeners to be current members by paying the annual \$5.00 membership dues. This membership helps to off- set the cost for water and other maintenance.

I accept the \$2.00 security deposit for every key to the water lock I receive from NNIA. The security deposit to be refunded when the key is returned.

By June 11th, I will have something planted in my plot.

I will keep the plot planted throughout the summer.

If I must abandon my plot for any reason, I will notify the garden coordinator.

I will keep weeds down, trash and litter cleared from the plot and adjacent pathways. I understand that if my plot becomes unkempt, I will be given 1 week's notice to clean it up. At that time, the plot may be re-assigned or tilled in.

It is my responsibility to pick crops when they are ripe, crops that I am willing to share with others, will be placed on the Sharing Table.

If I take produce from other gardener's plots without their permission, it will not be tolerated and I will most likely be prosecuted for my actions.

I will plant tall crops where they will not shade neighboring plots.

I am responsible for fall harvesting and completing a clean-up of my garden plot by Thanksgiving. I will also help with the clean-up of the perennial garden area.

I will not bring pets to the garden for they can damage the plants.

I WILL NOT USE FERTILIZERS, INSECTICIDES OR WEED REPELLANTS THAT ARE NOT ORGANIC.

I will return tools to safe storage places off the ground after any work session in the garden.
