

Greetings,

If you must call 911 for any reason, please consider the diagram below. The red boxes (top) are the most important to responding officers. Any additional information will greatly assist in the apprehension of the suspect/s. Please provide the direction of travel if known. Officers may be responding from any directions and need to know what they are looking for while en route to you.

Please print the description sheet and put it where you can find it quickly; keep it in your car, house, boat etc...

For issues that may be resolved without calling 911 you can provide me the description, suspicious activities, times and locations. If there is a vehicle involved try to get a license plate, description (SUV, convertible) and color.

If there is an emergency please call 911 immediately!

Your Neighborhood Officer,

Emilio Trejo
