

ADDENDUM NO 2
5.1 PROGRESS CLAUSE REVISION 2-8-19

ADDENDUM NO. 2 – Project completion date changes from May 31, 2019 to September 30, 2019 for W-91838.2 & W-91838.3

The project shall not start until after receiving the Notice to Proceed and holding a preconstruction meeting with the city.

The entire project shall be completed including final site restoration, pavement markings and clean-up on or before September 30, 2019.

Failure by the Contractor to meet the above requirements and dates will result in the Contractor being assessed liquidated damages in accordance with section 108.10 of the 2012 MDOT Standard Specifications for Construction. Liquidated damages will continue to be assessed for each calendar day or portion of the day that this work remains incomplete even if these days extend beyond the typical seasonal shut-down.

The confirmed low bidder shall submit a detailed progress schedule (MDOT Form 1130 may be used) to the Engineer at the preconstruction meeting. Lack of a timely submittal of the Progress Schedule by the Contractor may result in the Engineer delaying issuance of the Notice to Proceed.

The progress schedule shall include, as a minimum, the controlling work items for the completion of the project and the planned dates that these work items will be controlling operations. If the bidding documents specify other controlling dates these shall also be included in the Progress Schedule.

Failure on the part of the Contractor to carry out the provisions of the progress schedule, as established, may be considered sufficient cause to prevent bidding future projects until a satisfactory rate of progress is again established.

The starting date, contract time, or completion date for this project may be adjusted by the City of Muskegon without imposing liquidated damages upon the receipt of satisfactory documented evidence that unforeseen delays have occurred. These requests shall be processed in accordance with the applicable sections of the 2012 MDOT Standard Specifications for Construction.
