Residents within the Michigan Avenue / Franklin Street Project Area

RE: City of Muskegon – Street and Utility Improvements – Michigan Avenue / Franklin Street

Dear Property Owner(s):

Beginning April 2021, construction will be taking place on Michigan Avenue, from Lakeshore Drive to Hudson Street and Franklin Street from Michigan Avenue to Western Avenue. Construction includes approximately .40 miles of pavement reconstruction as well as replacing the storm sewer, select water services, concrete sidewalks, curb and gutter, and pavement markings. To complete this project in a timely matter, we will need your help and cooperation. Below is information regarding several topics that may be of concern.

Construction Schedule & Contacts

The construction schedule is anticipated to begin in April, 2021 and commence in July, 2021.

If you have any questions or concerns regarding the project, please contact the City of Muskegon Department of Public Works or Wadel Stabilization Inc. at the numbers below.

Fred Pease

Project Facilitator
City of Muskegon Department of Public Works
(231)724-6958

Brian DeLong

Project Manager
Wadel Stabilization Inc.
(231)638-0813

Engineering Department

(231)724-6979

William Simila

On-Site Supervisor
Wadel Stabilization Inc.
(231)638-7823

Leo Evans

Director of Public Works
City of Muskegon Department of Public Works
(231)724-4100

Work will generally be conducted between the hours of 7:00AM and 7:00PM on Monday through Friday, with possible work on Saturdays. We ask that residents stay out of the construction area during and after work hours and be aware of construction equipment in the area.

Access

During each phase, the affected roads will be closed but will stay accessible to residents in the immediate construction area throughout the project, except for short periods of time when pipe will be installed across the roads. Individual driveway access can be interrupted for a few hours, but in all cases will be restored by the end of the workday. Washington Avenue and Division Street will be the posted detours.

Driveways and Restoration

Driveways that are disrupted during construction will be replaced at the same location, and equal in size and type to the existing drive. Temporary driveway material will also be placed and maintained to provide access to residences during construction. Disturbed grass areas will be restored with topsoil, seed, fertilizer, and mulch.

If you have underground sprinklers installed along the road, please mark the heads and approximate locations of the pipe and if possible, remove the heads. The Contractor will attempt to avoid damaging irrigation systems however if they are damaged, they will repair them, if marked. Damage to unmarked irrigation is the responsibility of the property owner.

Mail

The Contractor will make the necessary arrangements with the postal service to assure uninterrupted mail delivery.

Garbage Pick-up

The Contractor will make the necessary arrangements with the appropriate waste management companies to assure uninterrupted garbage pickup. **Please write your name and address on your garbage bin in a visible location to assist in returning your bin to the proper house.**

Water Services

Many of the water services within the project area will be replaced up to the meter in the building, or up to 18 inches into the building if the meter is located within the right-of-way. If your water service is scheduled for replacement, the contractor will be contacting you during the construction period to schedule your water service replacement. The contractor will temporarily require access into your building before, and during, installation.

Your help will help minimize the time of disturbance in your area, providing a safer and earlier completion of the project. Thank you in advance for your efforts and patience!

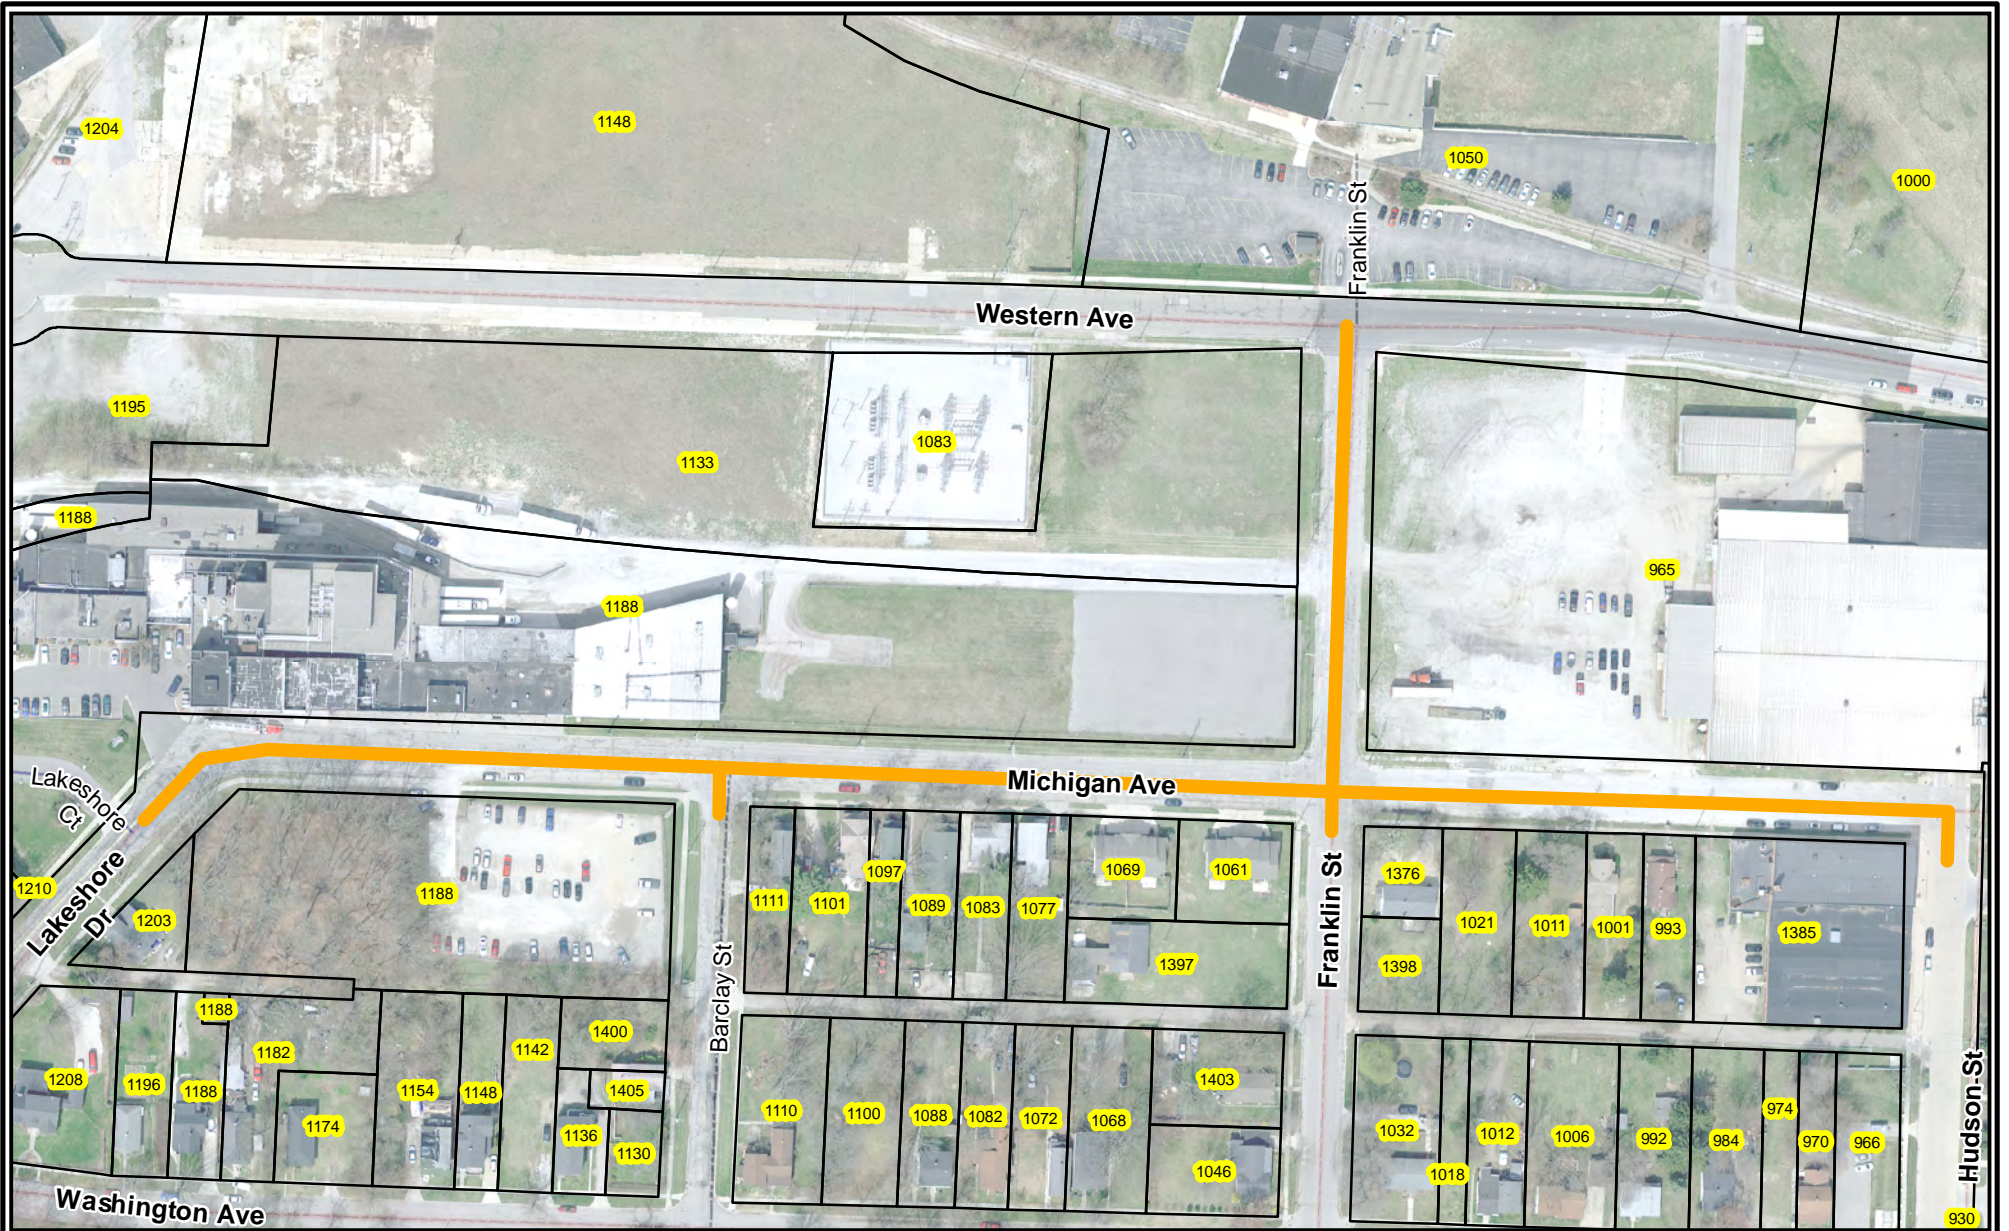

Sincerely,

City of Muskegon

Leo Evans, P.E.
